Big bellow this monster massif vibrates the particles of the world from the clouds in the sky to the stones in the ground. Entbrats are not greatly intelligent. A Entbrat is a quad monster element from plants island. Description The Entbrat is a huge, round green lime humanoid monster. Features include a cavernous mouth, two small lower teeth, curved brown horns with an expectation for each side, orange lips, a green leafy mane, small and shiny eyes, and hands and feet four fingers with nails Yellow. This monster probably has the strongest affinity with the plant element of all the monsters of the original game together with a belly. His bristly leaf mane travels along his arms and gives the impression of a beard under his chin. The Entbrat has two sets of horns; Two small rudimentary growths over the eyes, and two huge curved horns emerge from both sides of the head. These larger horns have the consistency and structure of the tree bark, and the growth leaf sprout. Despite the creatures from the omepled eggs, it has a "innie" navel. He waves back and forth to the rhythm of an island's song, swing her heavy arms. While the song will sometimes close the eyes and tighten the fists to deliver a particularly powerful note. On Tribal Island, the entbrat scratched his belly from time to time. Song listening proof: actor Voice: contribution Erick Desjardins of Entbrat to the song of an island is a strong, screaming vocal line, recognizable for its quality and the turbot notes incurred in length. On Tribal Island, the song of him changes to "Hey-yo, Heey-Yo-Hah!", Similar to Mammott on Air Island. He has a profound, rumby voice. Breeding Entbrat can be raised with monsters that you To provide all the vegetable, earth, water and cold elements without repeating any. The following 2-element monsters pairs can be used to raise an Entbrat: + Shrubbb and Maw + Oaktopus and Drumpler + Furcorn and Fwog However, the combination of an element 3 with Monster has a more high success rate: of these, Bowgart + Noggin and T-Rox + Potbelly is the best combinations, since © have time media playback more low when playback failure. There is also a small chance of producing a entbrat by an attempt breeding failed, using a entbrat a monster and no single element. Like all monsters Quad Element, the enbrati are difficult to breed, and these combinations may involve a parent instead monster like offspring. However, if you are lucky enough to have already owning both a entbat that a rare entbat, the two can be bred together to create another entbat with a 100% success rate. The rare version of any monster can be used for instead © play the common version.
